DIED SUDDENLY OF HEART DISEASE.

How frequently does a head line similar to the above greet us in the newspapers. The rush, push and strenuousness of the American people has a strong tendency to lead up to valvular and other affections of the heart, attended by irregular action, palpitation, dizziness, smothered sensations and other distressing symptoms.

Three of the prominent ingredients of which Dr. Pierce's Golden Medical Discovery is made are recommended by some of the leading writers on *Materia Medica* for the cure of just such cases. Golden Seal root, for instance, is said by the UNITED STATES DISPENSATORY, a standard authority, "to impart tone and increased power to the heart's action." Numerous other leading authorities represent Golden Seal as an unsurpassed tonic for the muscular system in general, and as the heart is almost wholly composed of muscular tissue, it naturally follows that it must be greatly strengthened by this superb, general tonic. But probably the most important ingredient of "Golden Medical Discovery," so far as its marvelous cures of valvular and other affections of the heart are concerned, is Stone root, or *Collinsonia Can.*, Prof. Wm. Paine, author of Paine's Epitomy of Medicine, says of it:

"I, not long since, had a patient who was so much oppressed with valvular disease of the heart that his friends were obliged to carry him up-stairs. He, however, gradually recovered under the influence of Collinsonin (medicinal principle extracted from Stone root), and is now attending to his business. Heretofore physicians knew of no remedy for the removal of so distressing and so dangerous a malady. With them it was all guess-work, and it fearfully warned the afflicted that death was near at hand. Collinsonin unquestionably affords relief in such cases, and in most instances effects a cure."

Stone root is also recommended by Drs. Hale and Ellingwood, of Chicago, for valvular and other diseases of the heart. The latter says: "It is a heart tonic of direct and *permanent* influence."

"Golden Medical Discovery," not only cures serious heart affections, but is a most efficient general tonic and invigorator, strengthening the stomach, invigorating the liver, regulating the bowels and curing catarrhal affections in all parts of the system.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

A VISIT TO HADES.

A strange religious sect which has been holding its meetings in a tenantless house on the outskirts of Colorado Springs, Col., has among its regular attendants a Miss Hamilton, who says her first name must not be revealed until the Lord gives permission. She is strikingly handsome and seems to be completely under the influence of the leaders of the sect.

One morning last week persons living in the vicinity of No. 806 east Cimarron street, where the meetings are held, were disturbed and frightened by the cries, as if someone were in agony, that came from the place, and they sent in a hurry call for the police.

When the officers arrived on the scene they were ushered into a darkened room, where prostrate on the floor lay the beautiful girl, while the handful of men and women around her were raising their hands in supplication and loudly calling for the delivery of her soul from the nether regions.

"It is hot; I am burning up!" cried the girl. "I can't get out of this!" And the expression on her face denoted terror. The police left the place without making any arrests. The next morning Miss Hamilton was visited at the home of a family named Blackat, No. 404 south El Paso street, by a reporter.

Miss Hamilton said: "I went through hell last night and saw heaven. They tell me I was two hours and a half in hell, but it seemed to me an interminable time. Three years ago I became possessed of the devil. Try as I would I could not shake off his influence. He had me so that I could not even kneel. Last night I went to the meeting. It was the same way. The devil still had me, and for a long time I was helpless.

"I went out from the meeting-room into a dark room by myself, and I had hardly entered when I saw the devil come through the window. Yes, he was in the flesh, like a man. He had horns, but his claws were the most terrible feature, and I felt myself in his grasp. My sufferings were too terrible to relate. I felt that I was smothering, and I struggled to get out of the room.

"When I opened the door leading into the other room I fell flat upon my face, exhausted. Then it was that the devil cast me into a lake of fire. I felt the pain, and it seemed that I should never come out of that terrible place. I called on God, but I had little hope that he would come to my rescue.

"I was not conscious of anyone's presence in the room or anything of this world. It seemed that I was in a bottomless pit, seething in a molten mass, and all about me was fiery vapor. Only the devil was there. I felt that he was crushing me while I was being consumed in the flames.

"Suddenly a vista seemed to open. I saw a strange light. Gradually I became enveloped in it, and then it was that I saw the mansions in the skies. They are much the same as the mansions and buildings of a large city. I saw Jesus sitting on a throne, and he said: 'Come unto me.' There were angels, and they were playing on harps and singing beautiful songs.

"The next thing I knew I seemed to waken, and again I felt my presence on earth and saw the people standing over me in the room. I knew that I was saved. I have been cleansed in the blood of Christ."

Watching Dead Wife.

Every night for two weeks W. H. R. Roth, a rising young engineer of Pottstown, Pa., has sat at the side of a coffin, looking on the face of his dead wife and holding a stiff, icy hand in his own. As has been stated in the Gazette, while earth was being thrown on the coffin in Mount Zion Cemetery, Roth ordered the work to stop. He declared he could not bear to see the body of his wife hidden by clay, and that he would watch the white, fixed face by night and every day lay fresh flowers on the coffin.

Roth's actions have caused great uneasiness to his relatives and friends. He is keeping the body in an undertaker's shop until a vault is built in the cemetery. He has given orders that the vault be airy and light so that he can go there and continue his vigils.

The man's wife was Miss Della Irene Rhoades, a daughter of Squire Rhoades, one of the foremost citizens of Pottstown. She was married on her nineteenth birthday, just two years ago, the bridegroom being two years the elder. The girl's father furnished a home for the couple, and as Roth occupied a profitable position and had a prospect of going into business for himself, life looked rosy for the couple. A boy was born about six months ago. Mrs. Roth was in splendid health all summer until late in August, when she fell ill, and in two days was dead.

What is a Backache?

IT IS NATURE'S WARNING TO WOMEN

Diseases of Woman's Organism Cured and Consequent Pain Stopped by Lydia E. Pinkham's Vegetable Compound.

"It seems as though my back would break." Women utter these words over and over again, but continue to drag along and suffer with aches in the small of the back, pain low down in the side, "bearing-down" pains, nervousness and no ambition for any task.

They do not realize that the back is the mainspring of woman's organism, and quickly indicates by aching a diseased condition of the female organs or kidneys, and that the aches and pains will continue until the cause is removed.

Lydia E. Pinkham's Vegetable Compound has been for many years the one and only effective remedy in such cases. It speedily cures female and kidney disorders and restores the female organs to a healthy condition.

"I have suffered with female troubles for over two years, suffering intense pain each month, my back ached until it seemed as though it would break, and I felt so weak all over that I did not find strength to attend to my work but had to stay in bed a large part of the first two or three days every month. I would have sleepless nights, bad dreams and severe headaches. All this undermined my health.

"We consulted an old family physician, who advised that I try Lydia E. Pinkham's Vegetable Compound. I began taking it regularly and soon found that I could sleep and eat better than I had done for months. Within two months I became regular and I no longer suffer from backache or pain."—Miss Maude Morris, Sec. Ladies' Aid and Mission Society, 86 E. Hunter St., Atlanta, Ga.

Received by the Pope.

Father Wernz, the newly-elected general of the Society of Jesus, accompanied by Father Freddi, vice general of the order, and Father Alfred Maertens, went to the Vatican yesterday in Rome for an audience of Pope Pius. The members of the party were received by Mgr. Bisleti, major-domo of the Vatican, who conducted them to the papal apartment. The pontiff met them at the door. Father Wernz and the prelates knelt, but Pope Pius would not allow Father Wernz to kiss his foot. Instead, he raised the new general up, embraced and kissed him, and kept him for a long time in conversation, during which he congratulated him on his election, and made inquiries about the work of the congregation. Father Wernz was greatly touched by the reception accorded him, and thanked the Pope for his benevolence. Going to and leaving the apartments of the Pope, the Swiss Guards rendered military honors to Father Wernz and his party.

CANDY MAKERS are up in arms against the pure food law because of the restrictions it will place upon their use of coloring matter. A representative of one of the supposedly most reputable candy manufacturing firms in the country came to Washington last week to consult with Dr. Wiley, chief of the bureau of chemistry and chairman of the commission charged with preparing the regulations for the food and drugs act. He declared that a quantity of aniline dyes were used in the preparation of candy, and had the impudence to say that if the dyes were prohibited the confectionery business would be seriously affected. Dr. Wiley very properly said in reply that the ruling of Secretary Wilson in connection with the meat inspection law prohibited the use of any chemical preservatives or coloring matter, and that this ruling must necessarily apply to the pure food law. In answer to the complaint that the coloring of candies was important to the business, in order to put up the confectionery in the most attractive colors, Dr. Wiley said that there were plenty of animal and vegetable dyes which could be used. It was possible to mix preparations of indigo, cochineal, etc., by mechanical processes with the confectionary, and every color in the rainbow could be obtained by using pure products. Dr. Wiley told the agent of the candy manufacturers that if the process was more expensive than the use of chemical dyes there was no help for it, as the pure food law was meant especially to prevent the use of deleterious ingredients in any kind of food. He also furnished figures from a high British medical authority in support of the statement that 80 per cent of the kidney and intestinal troubles of the people in Great Britain at the present time was caused by improper preservatives and dyes in food, but the violators of the pure food law care little for the suffering of others so they make money, thereby. Dr. Wiley declared that the pure food law would be most rigid in its exclusion of deleterious coloring matter and that candy manufacturers must conform to the law or pay the penalty. The law should be enforced to the letter.

MR. WILLIAMS, of Mississippi, the democratic floor leader of the House, is a brainy and conservative man and seldom goes off on a tangent. He was asked for an opinion concerning Mr. Bryan's government ownership policy and his reply will be approved by a large majority of democrats, especially those in the South. He says:

I am opposed to government ownership of railroads irrevocably, now and forever, in theory and in practice—a question concerning which Mr. Bryan and I agree to disagree. But I see no good to be attained by my rushing into print on the subject. We will simply vote it down if offered as a plank in the democratic platform. Meantime let us not magnify democratic differences. There are so many things we are agreed upon, let us emphasize them—push them to the front if we can. Bryan is not infallible, and does not pretend to be. He is right about so many things, eloquently and greatly right, but absolutely and altogether wrong about this one thing, especially from the standpoint of racial peace and quiet and quiet in the South. Let us strongly regulate railroad rates, but not operate railroads.

THE DISCOVERY has been made by a Washington lawyer that the action of President Roosevelt in putting into effect the simplified spelling may be in violation of a law that was passed by Congress some years ago. It is said that about 25 years ago Congress passed a joint resolution, which was approved by the President, making Webster's unabridged dictionary the standard for government spelling, and that the law has never been repealed. It is also stated that there is on record a decision of the United States Supreme Court affirming the resolution. But what are laws to Mr. Roosevelt, who is a law unto himself? And if he wants to spell cat with a "k" he will do so, law or no law.

ACCORDING to Carlos M. Aguirre, a prominent Cuban resident of New York, the President's protege, Gen. Wood, is responsible for the present troubles in Cuba. He says that Gen. Wood was guilty of fraud in the selection of Palma for President of the Cuban republic. No doubt he is correct. The administration has never dealt honestly with the Cubans or with a good many other people, and Gen. Wood was Mr. Roosevelt's servile tool in Cuba, as he has been since in the Philippines, and wherever he has gone trouble has seemed to follow. There must be some hidden cause for this rewarding Gen. Wood and advancing him over his fellows in his trouble-making career.

A BILL has been introduced in the Indian Council proposing the curtailment of the sale of cocaine in India, on the ground that at present the cocaine habit constitutes a serious danger to the country. This insidious and harmful drug seems to be a danger to every country under the sun.

THIS YEAR'S apple crop in Missouri is estimated by the State Horticultural Society to be worth $10,000,000. That State is ranked first in the apple industry, New York second, Illinois third and Michigan fourth. Missouri has 25,000,000 apple trees. Virginia is well up in the list and her apples are unsurpassed in quality and yield a snug revenue to many of the growers throughout the State.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, Sept. 10

The Department of Commerce and Labor has received from the Philadelphia immigration office a report of an attempt of three Americans to bring acting Inspector of Immigration Garbarino to admit a woman suffering from trachoma. Garbarino, after consulting his superiors, took the money, and then had the bribers arrested. They were bound over to the United States court after a preliminary hearing.

The crop estimating board of the Agriculture Department today estimated the average condition of cotton on August 25, as 77.3, as compared with 82.9 on July, 25, 1906, 72.1 on August 25, 1905, 84.1 on August 25, 1904, and a ten year average of 78.2

The recent disclosures of rascality and embezzlements of presidents and cashiers of banks, notably the Stensland and Hipple cases, has created a fear among the people who have their money in savings banks throughout the country and reports received show that the withdrawals of such accounts in the past few weeks have been abnormally large. In Washington it is said that the withdrawals from such institutions have been unusually large.

The Theological Survey this afternoon announced that the total coal production of the United States in 1905 was 392,919,341 short tons, having a value at the mines of $476,756,963, surpassing in both quantity and value all previous records. The production was 40 million tons greater than in 1904. Of the entire amount in 1905, 77,659,850 short tons were Pennsylvania anthracite, 4½ million more than in 1904.

The Census Bureau this afternoon announced that reports from ginneries show that the amount of cotton from this year's crop ginned to September 1, was 403,209 bales as compared with 476,655 to the same date last year. The reports this year were from 6,492 ginneries as compared with 8,629 in 1905.

Senator Rayner and Mr. Bryan.

Senator Isidor Rayner, of Maryland, believes that Mr. William Jennings Bryan may abandon his doctrine of government ownership of railroads. Mr. Rayner says the democratic party should nominate a man of convictions and principles rather than a mere figure-head; that it will not do to wage a negative campaign; that he believes Mr. Bryan will poll as large a democratic vote as any other man in the party; that Mr. Bryan is not obstinate and that he is willing to confer and modify his views; that wherever tried, government ownership of railroads has been a failure; that there are constitutional barriers to the scheme in this country, and that the interstate commerce law should be given a fair trial.

She stated to him that she had gone to No. 16 east Broad street, Richmond, to collect a bill from a former Roanoke woman who owed her for a skirt. Mr. Bohn says he regards it as an unfortunate escapade of two women, but he will stick to his wife.

Letter to Henry F. Robertson.

Alexandria Virginia,

Dear Sir: If you could get the exclusive sale of a sweeter sugar for five miles round—1lb as sweet as a pound of usual sugar, and no more—you'd jump at it, wouldn't you?

There wouldn't be 100 lb of any other sugar sold in a year in your town; you'd gobble the trade; and it wouldn't hurt your whole business.

Devoe is like that among paints; it is twice as sweet as some; it is sweeter than any; not one exception; one gallon is two or one-and-a-half or one-and-three quarters.

Better than that; paint has to be painted; that costs $2 to $4 a gallon. A gallon saved is $2 to $4 saved in labor, besides the paint.

Even that isn't all. A gallon Devoe puts on wears as long as two gallons put on at a cost of $2 to $4 a gallon and two gallons more put on at $2 to $4 a gallon. Count all that. The paint that wears double costs less by 3 gallons of paint and 3 gallons of painting; that's about $15 a gallon for those superfluous gallons.

That's as good as a double-sweet sugar, isn't it? Yours truly

F W DEVOE & Co

Today's Telegraphic News

REIGN OF TERROR.

Warsaw, Poland, Sept. 10.—News from Siendice indicates that the massacre which has been in progress here since Saturday evening is the worst occurring in Russia since the Kishineff horror.

Atrocities which beggar description have been committed and the end is not yet in sight. Fighting has been resumed, and it is feared there will be terrible loss of life and untold damage to property before order can be restored. Over 300 persons have been killed and many others wounded.

Many of the victims are women. For the most part the victims are Jews, although many Christians who tried to protect helpless Hebrews from the fury of the troops attacking them were shot down and bayoneted.

During the outbreak Jewish women were made the especial victims of drunken soldiers. Many were assaulted in the open streets, and horrible scenes were witnessed on every hand. Bestial troopers pursued young Jewesses who ran shrieking through the streets crying "Jehovah protect me."

The outburst began Saturday evening when terrorists shot and killed two soldiers who were guarding a government liquor store. Soldiers attracted to the scene fired a volley into a crowd of innocent by-standers. This infuriated the terrorists, who, in retaliation, began a massacre of policemen and soldiers. On Sunday morning a raid on the ghetto was immediately executed by enraged soldiers, and the fighting has continued since then. Entrance was forced into all Jewish houses and the places were looted and then given to the flames. Women found hiding in cellars or attics were dragged out to become the victims of the drunken soldiers. Those who escaped into the streets were run down by the brutal troopers.

The savage brutalities of the soldiers were not committed, however, without loss on their part. For the first time in the history of the pogromes which have disgraced Russia, the Jews offered something like organized resistance. Led by Jewish revolutionists, the Hebrews entrenched themselves in houses and fired from the windows upon the besiegers. Fully fifty soldiers were killed or wounded. The killing of troops only infuriated the attacking soldiers, and they returned to the attack with increased fury.

With the savageness of wild animals, they fired indiscriminately into crowds of Jews in the streets, and bayonetted helpless victims who had been wounded by their bullets. Christians who tried to assist the Jews were treated with as much brutality as the Hebrews.

Today the soldiers are still in full possession of the city and are keeping up their work of bloodshed and looting. It is estimated that more than $25,000 worth of property has been stolen or destroyed, while the loss of life is already placed at 300.

Warsaw, Poland, Sept. 10.—Aroused to a fear of their own safety because of the anti-Semitic massacre at Siendice, Jewish revolutionists are secretly organizing the Hebrews of the city to defend themselves in case an attack is made upon them.

There are abundant evidences of activity on the part of anti-Semites and fears are entertained by the authorities, as well as by Jews, that an attack on the Jewish quarters is being planned. Many Jews have left the city and those who cannot get away are preparing to sell their lives dearly if they are attacked. Positive instructions were received from St. Petersburg this morning that a pogrom must be prevented by the authorities at any cost, but the officials doubt their ability to protect the Jews if an attack is made upon them.

A message from Siendice, this afternoon, states that the firing in the Jewish quarter continues. Several houses have been fired, adding to the terror of the outbreak. Soldiers surround Siendice, and all persons have been barred from entering. Reinforcements are being awaited before an attempt is made to suppress the riotous soldiers.

Artillery was called into service today by the troops engaged in the massacre of Jews at Siendice, and the houses in which Jews and their revolutionary allies had entrenched themselves and were firing on the soldiers were quickly destroyed.

Following the destruction of the Jewish strongholds and the extermination of the defenders, the town is becoming quieter.

Desultory firing still continues in some sections of the city, but some semblance of order is being restored and it is hoped that the worst is over.

Estimates are given as to the number of killed and injured. One hundred killed and 400 injured are the stated figures. Arrests to the number of 1,000 persons have been made. In many instances the prisoners were severely beaten. No effort has been made to alleviate their sufferings and they are in terrible distress.

Following the dreadful massacre which has occurred at Siendlce that city is now threatened with famine. The Jewish bakeshops were entirely destroyed by the rioters, and there is no chance for the survivors of the outbreak to obtain food. Of the 12,000 Jewish residents of the city before the pogrom fully 5,000 are now destitute.

During the massacre the streets ran red with blood, especially in the neighborhood of Plesikna street where thirty Jews were killed.

According to the fugitives reaching here the authorities did nothing to prevent the massacre. In several instances they charge officers led their men to the attack against Jews.

Vladivostok, Sept. 10.— All the warehouses and offices as well as goods stored on the piers of the volunteer fleet were destroyed by fire today.

Three Hundred Lives Lost.

London, Sept. 10.—Three hundred lives are reported lost in a disastrous flood which occurred in the Kvarali district of the Caucasus, according to a report telegraphed from St. Petersburg by the correspondent of the Exchange Telegraph Company. The financial loss is said to be enormous.

Rescue of a Merchant.

A prominent merchant of Shongo, N. Y., J. A. Johnson, says: "Several years ago I cantracted a cough which grew worse, until I was hardly able to move around. I coughed constantly and nothing relieved my terrible suffering until I tried Dr. King's New Discovery. Before I had taken half a bottle my cough was much better, and in a short time I was entirely cured. I surely believe it saved my life. It will always be my family remedy for colds?" Fully guaranteed; 50c and $100 at E. S. Leadbeater & Sons' drug store. Trial bottle free.

The von Hochberg-Carew Marriage.

New York, Sept. 10.—The marriage of Count Hans Ferdinand von Hochberg to Miss Louise Ernestine Carew at Ossinging took place last evening. Heir to the castle and estate of Rohnstock, playmate of the Crown Prince of Germany, and cousin of the Grand Duke Michell von Saxe-Weimer, Count Hans sacrified his name and fame to marry a shop girl, the daughter a German of workman. The story of Count Hans' love involves the royal family of Germany. Count Han's romance began the day he met Louise Carew in a grove shop in Berlin. He loved her madly and they were much together.

They thought not of marriage for Count Hans was soon to marry a princess. The wedding day drew near and Count Hans learned that Louise was in delicate health. Count Hans went to his father Count Bolko von Hochber the lord of Rohenstock castle in Silesia. He told his father of Louise and his decision to marry her. There was a scene and when the wedding to the princess was cancelled, all Germany wondered. The father sent Count Hans on a tour hoping that he would forget the girl he loved. The count had married Louise in Germany but Kaiser William set aside the morganatic marriage at the request of the father and mother of the count.

Count Hans came here. He secured the position of a chauffeur with an automobile concern in Tarrytown. Then he sent for Louise. He dropped the title of Count, and went to Ossining to live. Louise carew escaped from Germany with difficulty. The German government cabled to have her held at Ellis Island, but the message came too late. Ferdinand von Hochberg yesterday married his love, Louise Carew.

Fighting In Cuba.

Havana, Cuba, Sept. 10—Fighting between the loyal troops and insurgents is still in progress near Consolacion del Sur, in Pinar del Rio province, and the outcome appears to be in doubt. Communication is cut, making it impossible to get accurate detailed information as to just what has occurred.

In the first encounter, the government forces, according to the most reliable report, has scored a victory. Insurgents still surround the government forces, although repulsed in the first attack, and the position of Col. Avalos and General Diaz, commanding the loyalists, is extremely critical. To the machine gun imported from the United States and gunners commanded by Capt. Webster, an American officer, the loyalist owe their early victory.

Havana, Sept. 10.—That the battle yesterday between the insurgents and and loyalists in Pinar del Rio province resulting in a government victory is officially claimed in a bulletin just made public. It states that Col. Alvos with the government armed train defeated the insurgents with a loss of 300 men. The railroad has been repaired according to the bulletin and the loyalist army is proceeding toward Pinar del Rio city.

The Election in Maine.

Portland, Me., Sept. 10.—Election is being held in Maine today under circumstances that make it more than ever an event of national interest. The most noteworthy incident of the bitter campaign just ended has been the part played by Samuel Gompers, President of the American Federation of Labor, who attacked Congressman Charles E. Littlefield, on account of the latter's alleged hostility to the cause of organized labor. Mr. Gompers' declaration so alarmed the republicans of the State that they hastily appealed to Washington, and as a result of the administration's quick response Maine has been stumped by speakers of national fame. The outlook today is favorable to the success of the Governor, William T. Combs, over his antagonist, Charles W. Davis, of Waterville. In ordinary years Maine has gone republican on State issues by a majority of 20,000 or more.

Married Third Wife.

New York, Sept. 10.—Although no cards announcing the event have been sent out, friends of Daniel G. Reid, an important factor in New York's financial world, have learned from what they consider a reliable source that he has married for the third time, his bride being Mabel Carrier, a young actress, with whom his name has been connected for the last year. Miss Carrier is about 28 years old and comes from Detroit. She appeared in "A Chinese Honeymoon," and later in "The Runaways," in which she advanced to the principal part. She is tall and was considered one of the most beautiful chorus girls on Broadway. Daniel G Reid is 48 years old. His fortune is estimated between $35,000,000 and $40,000,000.

The man died before he could tell the love tragedy of his life, which he kept a secret so many years. A first nighter at the theatres and known to everybody on the Rialto, Antonio Pride lived his life without the companionship of women. He told no one the reason.

The collieries of the Philadelphia & Reading Coal & Iron Company, at Mahanoy City, Pa., resumed operations today, after an idleness of over a week, giving employment to 3,500 men and boys.

Racing for Roosevelt Cup.

Marblehead, Mass., Sept. 10.—Only three candidates remain in the Roosevelt cup, two of them American boats and the other German. The four races of last week eliminated from the original six "sonders," all but the Vim, the Auk and the Wannsee. The Auk and Wannsee have each won a race, while the Vim has captured two, so that another victory for the latter will mean the permanent ownership of the trophy. Today's contest has been postponed on account of fog.

Runaway Cars.

New York, Sept. 10—Seven people were injured in a crash of three runaway trolley cars on the Brooklyn bridge today. The cars were filled with passengers, and while on the down grade on the Manhattan side of the bridge the brakes failed to work. The cars jammed together and were telescoped. Collapse of a Garage.

New York, Sept. 10.—Two persons are reported killed and several were seriously injured in the collapse today of a garage in course of construction at Mineola, L. I. There were about thirty workmen in the building, which was being constructed of concrete, when the walls crumbled and sank together, burying the men beneath the mass of wood and cement.

Death of an Aged Woman.

Cumberland, Md., Sept. 10.—Mrs. Sabinia Tauber, aged 94, died here today. She was a native of Germany. A peculiar incident in connection with her life, was her abhorrence for the English language. Although she had lived here 50 years, she never spoke a word of English, and refused to allow her children to speak the language.

Mr. Bryan.

Lincoln, Neb., Sept. 10.—William J. Bryan departed this morning for his southern tour, going via Omaha, where he speaks late today at a union labor festival. He will continue his journey to St. Louis where he will be given a reception tomorrow.

New York Stock Market.

New York, Sept. 10.—The realization of the expected heavy engagements of gold for import to this city caused a strong tone all through the market in the first hour. The most active important factor in the market was general profit-taking sales. Selling orders came in the market from many quarters and stocks were sold at concessions from Saturday's closing prices. London trading was mixed, and much of the same character as the local operations. Some arbitrage brokers said that sales exceeded the buying by about 10,000 shares.

The police are mystified regarding the case of an unknown man, who jumped from a Flatbush avenue car on the Brooklyn bridge, today swam around for a while and was finally picked up by a tug which continued its way up the river.

A dispatch from Constantinople says that all the difficulty in regard to the recognition of Ambassador Leishman of the United States in his new capacity of Ambassador to Turkey has been removed by the agreement of the Sultan to receive Mr. Leishman in the near future. This will end the dispute between the two countries on the subject.

One hundred and fifteen thousand troops, the flower of Germany, are today deployed throughout Silesia engaged in the customary autumn maneuvers. Emperor William arrived on the field this morning from Breslau and the mimic warfare operations were at once inaugurated upon a large scale. The troops are divided into two armies known as the reds and blues.

Hippie, the dead president of the Real Estate Trust Company, in Philadelphia, said this morning that two policies on Hipple's life had been found among his private papers. Attractions at Luna Park.

Luna Park has begun a week of unusual events. The hippodrome stage will be occupied by Miss Zingarella, who performs some startling acts on a three-foot globe while journeying from the top to the bottom of a seventy-two foot spiral tower. The runway on which she rolls the globe is less than eighteen inches across. When at the pinnacle of the tower she stands on tiptoe on one foot, still remaining on the huge globe. Her act will take place every afternoon and evening during the week. The new "Greater Washington Band" will remain for another week in the musical shell. As an added attraction, the management announces Master Frank Hector and his "Race with Death" on a unicycle down the steep chute's incline, a sensational dive into the waters of the big lagoon, and his rescue by the boatmen of the "shoot-the-chutes." The boy is but seventeen years of age, and is reported to be a phenomenally daring athlete. The management of Luna Park is now preparing for a series of special days that would indicate that the park will be open during the entire month of October. One of the interesting announcements is the return of the Beachy airship for a special feature in connection with "Greater Washington Day."

Local Matters.

Sun rises tomorrow at 5:36 a. m. and sets at 6:18 p. m. High water at 12:59 a. m. and 1:24 p. m.

Weather Probabilities.

For this section fair and continued warm tonight and Tuesday; light westerly winds.

Assaulted near Luna Park.

Another couple have been assaulted near Luna Park. This second outrage during the past few days occurred at 8 o'clock near that resort. Mr. Morris Gooding and Miss Mabel Risley, both of Washington, were the victims and their assailant was a negro. They were brutally beaten and the girl was robbed of jewelry and about $16.

The assailant escaped. The assault took place near the same spot where Joseph H. Settle was shot by a negro Thursday night.

Miss Risley and Gooding had gone to Luna Park for the afternoon, and after enjoying the various sights concluded to walk around the grounds just outside the enclosure.

Miss Riley said that they walked but a short distance, and were returning to the gate preparatory to taking a car for Washington when a colored man emerged from the bushes and rushing at Gooding, beat him over the head with a club, knocking him down.

Miss Risley looked on too horrified to move or make an outcry, and Gooding having started for assistance the negro turned on the young woman with an oath and demanded her valuables.

Miss Risley started to run, when her assailant drew a revolver and threatened to shoot her on the spot if she moved. She did scream, however, when the negro grabbed her, and, burying his fingers in her throat, choked her until, almost fainting, she fell to the ground. He then took two plain gold rings from her fingers, snatched her pocketbook from the ground, where it had fallen during the scuffle, robbed her of her watch and running into the bushes and made his escape. Miss Risley's cries soon attracted a large crowd to the scene of the holdup, and a rigorous search was instituted. The highwayman, however, had disappeared.

Gooding was sent to Washington and placed in a hospital. He says that when he had recovered consciousness while the colored man was running away, he fired at him with his revolver and that the man had staggered.

Miss Risley, who is nineteen years old and attractive, is prostrated from nervous shock. Her neck and arms are badly bruised as the result of the struggle with her assailant.

The authorities at the park give an entirely different version of the affair. They say no pistol was discharged, and that the young man and young woman were about a quarter of a mile from the resort, and that when the couple were confronted by the strange man that Gooding ran toward the park gate and gave the alarm. Chief of Police Price made an instant response and proceeded to the spot where the assault had occurred.

Miss Risley and Gooding were reprimanded for leaving the park and were not allowed to re-enter. They were sent back to Washington. It is said while the girl was being robbed of her jewelry she was brutally assaulted. One of Gooding's ears was bleeding when he returned to the park.

As stated above, this is the second assault that has occurred in the neighborhood of Luna Park within the past few days. In justice to the management of this popular resort it should be observed that both took place in a sequestered place outside the park enclosure. There is every effort made to preserve the best order on the park grounds, and the management have been successful in their endeavors. Of course when patrons stray outside and beyond the protection of the park police, the latter cannot be held responsible for what occurs.

A colored man was arrested today suspected of being the assailant and locked up in the county jail where he will be held to see if he can be identified as the guilty party.

Did Hipple Make "Dummy" Loans?

A telegram from Philadelphia says: "Was F. K Hipple in the power of another financial schemer besides A. Segal? That he was is the belief of those who have discovered in his private vault in the Real Estate Trust Company records of two loans made apparently to fictitious persons for $198,000. The notes are in the names of J. W. Schwartz and John Webbeel. The Schwartz account shows that a loan of $65,000 was made on 48,000 shares of Washington, Alexandria and Mount Vernon Railway stock and 40,000 shares of International Match Company stock. On a note which bears the name of Wabbeel there was a loan of $133,000, secured by $150,000 bonds of the New Alexandria Land and Improvement Company. District Attorney John C. Bell has been unable to find either Schwartz or Wabbeel, and concludes that the names are fictitious. But there is no doubt about the $198,000 real money having been taken from the deposits of the bank for this loan, and it is believed that the men benefited were Hipple and some one interested in the schemes the collateral of which was offered as security. Hipple gave his personal attention to the notes, and during the five years they have run he attended to the renewals and paid the interest. He was instrumental in organizing the Washington, Alexandria and Mt. Vernon Railway, and was secretary of the corporation at the time of his death. More than half a million dollars in apparently bad loans, outside of the Segal operations, were uncovered Saturday, and every one of these loans appears to have been worked solely by Hipple."

Fined Five Dollars.

Among the cases before the Police Court this morning was that of a woman named Bessie Johnson who had been arrested by Officer Henderson charged with keeping an unlicensed dog. She was fined $5. It is hoped that other owners will follow Mr. Henderson's example and make some exertion toward compelling owners of all dogs to pay taxes on the same. Many unlicensed dogs, it is believed, prowl about the city, and measures should be adopted by the authorities for disposing of them. There was a mad dog scare on south Lee street a few days ago.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Bessie Johnson, arrested by Officer Henderson charged with keeping a dog without a license, was fined $5.

Stanford Hampton, colored, arrested by Officer Jones charged with disorderly conduct, was fined $5.

John Johnson and Wm. Quailes, both colored, arrested by Officer Bell charged with disorderly conduct, were dismissed.

Bertie Jackson, Mary Ponnell and Mary Lee, all colored, arrested by Officers Bell and Henderson charged with disorderly conduct, were fined $5 each.

George Stanton, colored, arrested by Officers Beach and Lyles charged with being drunk in the street, was fined $2.50.

Willie Peck and Kate Williams, arrested by Officers Beach, Lyles and Henderson charged with disorderly conduct, were dismissed.

Bessie Johnson, arrested by the same officers charged with keeping a disorderly house, was fined $10.

James Bell, colored, arrested by Lieutenant Smith and Officer Young charged with assaulting Taylor Robinson with a pistol, was dismissed.

A white man, arrested by Officers Bettis and Nicholson charged with non-support of his family, was sent to jail for 20 days.

A white man, arrested by Officer Lyles charged with disorderly conduct, forfeited $5 collateral by failing to appear.

Another white man, arrested by the same officer on a similar charge, was dismissed.

Sophia Lewis, colored, arrested by Officers Nicholson and Lyles charged with disorderly conduct, was dismissed.

The Heath Ark.

The Washington papers continue to call attention to the ark anchored in Maryland waters off Jones's Point in which, it is alleged, gambling is conducted. It has been asserted by some that it is in the power of the authorities of Alexandria to act in the matter, but others express doubts and cannot see what jurisdiction Alexandria has over the ark, while it is anchored outside Virginia waters. The fact that visitors to the houseboat embark from this city is thought by some to be sufficient reason for action on the part of Mayor Paff. The latter had a consultation with Commonwealth's Attorney Brent this morning concerning the matter. Mr. Brent showed the Mayor the agreement entered into between the States of Virginia and Maryland in reference to the jurisdiction over the Potomac, but in no wise convinced him that the City of Alexandria had anything to do with the ark. The conference however was a most amicable one.

"The Lights of Gotham."

"The Lights of Gotham," P. J. Gould's big production, will appear at the Opera House tonight for one night only. This company has been meeting with good success since its opening in New York city in August. The story deals with New York life in four acts, and Miss Helen Hawtrey, the young emotional actress, will play the leading role of Mary Merton, supported by Al H. Fox, the clever comedian and dancer, and a company of New York players. This is the same company that produced this play in New York, Chicago and other large cities. This will be one of the most important theatrical events of the season and comes highly recommended as a high class attraction.

Woman's Auxiliary.

A called meeting of the Woman's Auxiliary to R. E. Lee Camp will be held in the Camp Hall tomorrow, Tuesday, evening 7:30 o'clock, to which all members of the Auxiliary, 17th Virginia Regiment Chapter, U. D. C., Mary Custis Lee Chapter, Junior Daughters of the Confederacy, R. E. Lee Camp, Confederate Veterans, and the Sons of Veterans are earnestly requested to attend. The meeting will be of the utmost importance to all interested in the Confederate Veterans' building.

Accident to an Alexandrian.

As the result of falling from a Seventh street car in Washington shortly after noon yesterday Mr. Arthur C. Davis, of this city, is in a serious condition at his home in Alexandria. He sustained injuries about the head and shoulders. Mr. Davis, it is said, was in the act of alighting from the car at the ferry wharf when it suddenly started, throwing him from his feet.

Accident to an Officer.

Officer Henderson was painfully injured last Saturday night while chasing a negro named Banks for whom he had a warrant. The darkey was running north on Pitt street with the officer close on his heels, and in the darkness Mr. Henderson stumbled over a doorstep and fell on the pavement, injuring one of his knees.

To Change Station.

It is again reported that the electric railway company is making arrangements to take possession of the building on the southwest corner of Prince and Royal streets. It will be used as a station instead of the present one at the northeast corner. The change will, it is thought, take place about the 20th instant.

River Notes.

The monitor Puritan, which took part in the recent naval display, passed up the river yesterday afternoon.

The schooner Five Sisters from Aquia creek with lumber to Smoot & Co., has arrived.

When two strong men come to blows, even if they are well matched, it is not a pleasing sight, but if the man who gets the worst of it will use DeWitt's Witch Hazel Salve, he will look better and feel better in short order. Be sure you get DeWitt's. Good for everything a salve is used for, including piles. Sold by W. F. Creighton Co., 401 King street.

Yesterday.

Yesterday was an ideal September Sunday. The sun was too warm for comfort but in the shade the temperature was fine and the day and night was clear. The pulpits of all the churches except the Second Presbyterian (which is vacant) were filled by the resident clergy and the services were fairly well attended. The fine weather induced many to take short excursions in the surrounding country either by the steamers or railway trains.

Two Types of Biographic Writing.

It is an interesting fact in the history of literary genius that two of the great examples of biographical writing occur almost side by side. Less than a decade separates the completion of Johnson's "Lives of the Poets" from the publication of his own life by Boswell. Yet with the latter book a new type of biography came into being. Johnson, in the main, had, like most of his predecessors, followed a simple narrative and expository method, prefixing a plain story of the poet's life to a systematic account of his character and a critical estimate of his works. He gathered his facts and impressions together and spoke for the author and for himself. Boswell, on the other hand, making use of a more dramatic method, succeeded in his attempt to let the author reveal himself, and, instead of an exposition of character, painted a picture of personality to which his own comments were subordinate. What we see as a type of mind and character in Johnson's work we see as a living man in Boswell.—William T. Brewster in Forum.

Wise Girl.

Now, there was a certain girl, and she had three wooers. The first wooer said she was the whole world to him, but she frowned upon his suit. The second wooer said she was the sun, moon and stars to him, but she bade him be on his way.

"To me," said the third, "you are a young woman of agreeable manners, with eyes that might be a little bluer, with a nose that is a wee bit puggy and with a few freckles and an annoying habit of blurting out your thoughts."

She married the third wooer. Being pressed for an explanation of her conduct, she said:

"My goodness! I think I was sensible. I married the only one that had courage enough to tell me of my faults before marriage, instead of waiting to throw them up to me afterward."—Life.

Torture By Savages.

"Speaking of the torture to which some of the savage tribes in the Philippines subject their captives, reminds me of the intense suffering I endured for three months from inflammation of the Kidneys," says W. A Double Tragedy.

Charles Hughes, aged 45, and Mrs. Joseph B. Green, aged 28, both of Woodbury, N. J., were drowned in the Lehigh river, near Allentown, Pa., Saturday night. Hughes was superintendent of a construction gang building a power-house at Allentown. Receiving a telegram Saturday afternoon, he told his men a friend would visit him and they would not see him over Sunday. At 4 o'clock he met a handsome woman, wearing a grey silk gown. He took her to a hotel and they registered as man and wife. During the evening the pair went rowing. Shortly after dark shrieks were heard out in the stream. An hour later the boat was found almost full of water. Search was begun yesterday morning. The woman's corpse was grappled at noon. About the same time the man's body was found on the bank, a mile down. Hughes leaves a wife and three children. Mrs. Green leaves a husband and two children. The coroner is trying to find out whether it was an accident or a case of murder and suicide.

To Unionize Schools.

The Central Labor Union in Philadelphia yesterday considered the closed school and the unionization of teachers and children. The whole matter came up in a remarkable discussion, led by Delegate F. Collins. The plan as contemplated is the thorough unionization of teachers, who are to be enrolled in the union. It is proposed that all "scab" teachers shall be excluded from the schools. The children are to wear to school the union buttons of their fathers' craft. The matter came before the union by reason of a complaint received censuring the trades school which the board of education will open as an adjunct to the public school system this week. Some delegates declared that this school would be a nursery for "scabs," and that the young men graduated after a three year course would be inimical to the unions. Then the scheme of school unionizing was sprung.

Giantess Dies in Fairfax County.

The death of one of the most remarkable women in Fairfax county occurred recently when Mrs. Jacquiline Johnson died in her home near Langley. Mrs Johnson had always been looked upon as the largest woman in that section of the State, but few knew her exact size and weight. The coffin, which was six feet long, thirty inches wide and twenty inches deep, had to be built to order in Washington. Ten ball-bearers were required to carry the body to and from the hearse. Mrs. Johnson's weight was about 500 pounds. She was sixty years old, and is survived by one daughter and one son.
